XPENG G6
ULTRA SMART COUPE SUV

Feature Highlights

Rapid Charging & Super Fast Charging:
Equipped with advanced 800-volt technology. With G6, go from 10% to 80% battery in just 20 minutes, saving you time and keeping you on the road. Enjoy longer drives with fewer stops for charging.

Latest Generation EV Platform SEPA 2.0:
The G6 is built on XPENG's latest generation EV platform SEPA 2.0. The lighter weight can provide the customer the longer range, also torsional rigidity, an 83% increase in stiffness compared to our previous designs. Over 300 parts are integrated into one, for greater impact resistance, better weight management, and better protection.

Maximum Energy Efficiency:
XPENG G6's heating system X-HP3.0 Heat Pump is designed for maximum energy efficiency. Customers can travel comfortably regardless of the temperature outside.

Luxurious Equipment & Design:
Experience luxury with the G6's lavish standard equipment. With 20-inch wheels paired with Michelin tires, provide the users comfortable experience. Immersive entertaining experience in 960W, 18-speaker audio system.

Cell-integrated Bodywork:
The battery is integrated as a fixed part of the platform. A 3-layer crash structure helps protect the battery, and the side pillar can withstand pressure up to 80 tons. With this design, it achieves a vertical space saving of 5%, offering a better driving experience and a more spacious cabin.

Spacious & Comfortable:
With a wheelbase of 2.89 meters and smart interior design, it provides plenty of legroom and headroom. With a luggage compartment of 571 liters of storage space and expandable 1,374 liters when the rear seats are folded, it has enough spaces for customers to take most things with them on the trip.

Specification

	Standard Range	Long Range	AWD Performance
Drive & Performance			
Acceleration 0 - 100 km/h	6.6 sec	6.2 sec	4 sec
Top Speed	200 km/h		
Driving Range (WLTC*)	435 km	570 km	550 km
Maximum Power	190 kW	210 kW	350 kW
Maximum Torque	440 N·m		660 N·m
Battery			
Gross Battery Capacity	66 kWh	87.5 kWh	
Cell Type	LFP	NCM	

	Standard Range	Long Range	AWD Performance
Dimension			
Overall Length * Width * Height	4753 mm * 1920 mm * 1650 mm		
Trunk Space	1374 L with rear seats folded		
Curb Weight	2025 kg without tow bar / 2048 kg with tow bar	2120 kg without tow bar / 2143 kg with tow bar	
Wheelbase	2890 mm		
Number of Seats	5		
Charging			
AC Charging Power	Up to 11 kW (3-phase)		
DC Fast Charging Power	215 kW		280 kW
DC Charge Time (10%-80%)	20 min		

Notes:

WLTC stands for "Worldwide Harmonized Vehicles Test Cycle," a standardized testing procedure used to evaluate the fuel efficiency and emissions performance of light-duty vehicles .
